**Job Title**

Project Officer

**Organization**

The African Union Inter-African Bureau for Animal Resources (AU-IBAR) is a specialized Technical Office (STO) of the Department of Rural Economy and Agriculture (DREA) of the African Union Commission (AUC). Its mandate is to support and coordinate the sustainable development and utilization of animal resources (livestock, fisheries and wildlife) to enhance nutrition and food security and contribute to the wellbeing and prosperity of the people in the MSs of the AU. AU-IBAR accomplishes its mandate through supporting and empowering the African Union member states and the Regional Economic Communities (RECs). AU-IBAR's vision is of an Africa in which animal resources contribute significantly to the reduction of poverty and hunger. Founded in 1951 to study the epidemiological situation and fight rinderpest in Africa, AU-IBAR's mandate covers all aspects of animal resources, including livestock, fisheries and wildlife, across the entire African continent, but fills a unique and strategic niche by working at continental and regional levels, with the RECs being key partners.

Recently, AU-IBAR led a cross section of stakeholders in the livestock sector on the African continent to formulate the Livestock Development Strategy for Africa (LiDeSA), a 20-year framework for the collective and coordinated development of the livestock on the continent. The strategy was approved by the AU Heads of States and Governments of the AU in January 2015.

To initiate the implementation of the LiDeSA, the European Union has made available funds to assist AU-IBAR implement the Sustainable Development of Livestock for Livelihoods in Africa (Live2Africa) project, which will initiate the implementation of the LiDeSA.

AU-IBAR intends to apply part of the funds for employing experts in various disciplines to spearhead the implementation of the Live2Africa. In this regard, AU-IBAR seeks the services of a Project Officer, who will be responsible for the overall implementation of the Live2Africa Project.
