Job Title

Technical Officer - Disease Control and Prevention

Organization

The African Union, established as a unique Pan African continental body, is charged with spearheading Africa's rapid integration and sustainable development by promoting unity, solidarity, cohesion and cooperation among the peoples of Africa and African States as well as developing a new partnership worldwide. Its Headquarters is located in Addis Ababa, capital city of Ethiopia.

The Africa Centres for Disease Control and Prevention (Africa CDC) was officially launched in Addis Ababa, Ethiopia, on January 31, 2017. The Africa CDC is Africa's first continent-wide public health agency and envisions a safer, healthier, integrated and stronger Africa, where Member States are capable of effectively responding to outbreaks of infectious diseases and other public health threats. The agency mission is to strengthen Africa's public health institutions' capabilities to detect and respond quickly and effectively to disease outbreaks and other health burdens through an integrated network of continent-wide preparedness and response, surveillance, laboratory, and research programmes.

Towards meeting its' mission, the Africa CDC will work with African Union member States, WHO, and partners in the five geographic sub-regions of Africa to strengthen their capacity in five strategic priority areas: (1) public health surveillance and disease intelligence; (2) public health emergency preparedness and response; (3) public health laboratory systems and networks; (4) public health information and technology systems; and (5) public health research and public health institutes. The guiding principles of the Africa CDC include Leadership, Management, Finance, Workforce, Partnership and Innovation.

In seeking to achieve this objective, the African Union intends to strengthen its capacity to deliver by, among others, the reinforcement of its organizational structure and expertise. The Commission of the African Union invites applicants who are citizens of Member States to apply for the position of Technical Officer - Disease Control and Prevention.

Department

Job title: Technical Officer - Disease Control and Prevention

Grade: P2
Department: Africa CDC
Supervisor: Head of Division - Disease Control and Prevention
Duty Station: Addis Ababa, Ethiopia
Number of Post: 1

Project

The Technical Officer - Disease Control and Prevention will be responsible for carrying out a variety of technical support services in the area of non-communicable disease epidemiology and surveillance and related public health programme implementation in service of Regional Collaborating Centres (RCC) and National Public Health Institutes (NPHI) activities and programmes.

Technical assistance and programmatic support activities may include workforce capacity development, health promotion, epidemiology assessments, monitoring and surveillance, public health research, and strengthening of health information systems, laboratory networks, and other health systems strengthening activities, all in alignment with Africa CDC's vision and strategic plan and RCC priorities.

Tasks

The Technical Officer - Disease Control and Prevention shall:

- a) Support efforts to establish non-communicable diseases surveillance as an important mechanism for assessing disease burden and trends.
- b) Strengthen implementation of the existing non-communicable disease surveillance systems within member states and ensure linkages with animal, agriculture and environmental sectors.
- c) Support countries to strengthen disease-specific surveillance systems for priority diseases (e.g. cancer, cardiovascular disease, and diabetes) appropriate for the African context.
- d) Support establishment and strengthening of National Public Health Institutes to coordinate non-communicable surveillance systems in a multi-sectorial approach and ensure surveillance data inform national policy and public health actions.
- e) Facilitate and strengthen RCCs in promoting inter-country collaboration on surveillance data sharing and use, and promote engagement of countries in regional surveillance and laboratory networks for monitoring and reporting of non-communicable diseases.
- f) Improve Africa CDC's access to non-communicable diseases health-related data through coordination, collaboration, and technical assistance.
- g) Facilitate and strengthen RCC and NPHI capacities in health promotion for the prevention and control of diseases of public health importance.
- h) Under the direction of the designated Africa CDC Incident Commander, coordinate the delivery of technical services in support of Africa CDC Emergency Response activities as appropriate and assigned.
- i) Perform other duties as assigned.

Requirements
